## INTRINSICALLY SAFE FLASHLIGHTS 3AA AND 3C eLED CPO

*These flashlights combine the best of both worlds:*

*Lightweight with superior ergonomics, but still long-lasting and excellent in performance!*

One of the many features of these intrinsically safe flashlights is Proprietary Compound Path Optics (CPO) which permits high efficiency and compact size. Even though the 3AA and 3C eLED CPO are the smallest intrinsically safe flashlights of its kind, they are specifically designed for workers wearing even the thickest gloves.

The 3AA eLED CPO can be mounted to any helmet or hard hat using a helmet clip. Additionally, the 3C eLED CPO is equipped with an ergonomic and very strong belt clip, which provides easy access and portability.
